**POLICY**  
**on the disposal of wastes related to hazardous materials**

## **1. GENERAL TERMS**

1.1. This policy has been developed for implementation at the Moscow State University of Food Production (hereinafter - MSUFP, the University).

1.2. The Common Hazardous Waste Treatment and Disposal Policy applies to wastes from the time they are generated through the various stages of waste reduction, treatment and regeneration up to their complete disposal.

1.3. The University has developed a set of measures aimed at controlling the disposal of wastes belonging to the group of hazardous materials.

## **2. SET OF MEASURES**

2.1. The University intends to thoroughly investigate the processes leading to the generation of waste related to hazardous materials.

2.2. Before the final hazardous waste disposal, the University examines its reuse as a raw material or energy source.

2.3. The University undertakes to reduce the hazardous waste amount.

2.4. The University provides education on hazardous waste management, monitoring and environmentally safe disposal.

2.5. The University encourages and supports cooperation, within its capabilities, in activities aimed at improving the assessment of the risk, associated with hazardous wastes, response to and reduction of hazardous waste risks.

2.6. The University encourages and supports cooperation with industry in research on the environmentally safe management, storage, transportation, treatment, and disposal of hazardous wastes.

2.7. The University encourages cooperation with special enterprises dealing with hazardous waste management and hazardous waste treatment.
